

Employment Opportunities

Waymarc is a growing company with exciting employment opportunities in several areas. We feature competitive wages, a great benefits package, on the job training, a team oriented atmosphere and a profit sharing program.

We are currently interviewing employees in the following areas

Edmonton and Calgary

Installation Team Member

As part of a Waymarc Installation Team, you will install and construct the full line of Waymarc products. You will be given on the job training and all the equipment you need. Experience working with metal and/or welding experience is an asset but not required. You will be required to do some heavy lifting from time to time. If you enjoy working with a small team and find satisfaction in constructing something to completion, then this is the job for you.

Inside Sales/Order Desk Staff

Working with the office administrative team, you will field inside sales calls and support the overall operation of Waymarc. Tasks include taking and placing orders, maintaining contact with suppliers, managing stock levels and working with our customers to find the best products to suit their needs. We provide on the job training and a supportive team atmosphere to ensure your success.

Territory Manager (Sales)

As part of our Waymarc sales and estimation team, you will be trained in the skills you need to know to be a storage efficiency consultant. As part of our consultative approach to selling our products/services, you will represent Waymarc within a defined sales territory. In addition to a base salary, you will receive a commission based on your territory's sales performance. We also cover your expenses when representing Waymarc. While prior sales experience is not essential, it is an asset to have sales experience in the materials handling, parts or warehousing industries. If you are an independent self-starter, then this is a perfect fit.
