CNC TOOL RACKS

The CNC tool rack seamlessly integrates into all Rousseau product lines: Spider® Shelving, R Cabinets, WM Bench Frames and TekZone Hutches. Lightweight yet heavy duty, the racks have ergonomic handles to facilitate tool handling. Its distinctive advantage lies in the rack's resistant PVC extruded design. It can withstand blows and corrosion while allowing fluids to drain away, which prolongs the life of your tools. In addition, the racks feature a tool labeling area for quick and easy identification.

With Rousseau NC tool racks, you reduce your purchase and refurbishing costs.

Main benefits :

- Compatible with the most popular tools on the market
- Provides secure storage for your tools
- Integrates into all Rousseau product lines

SHELVING

Compatible with the following Spider® Shelving: 30"W x 24"D, 36"W x 18"D and 36"W x 24"D with NC51 adapters

WM UPRIGHTS

Installs in 28"W and 34"W WM11, WMA and WM35 frames with NC50 adapters

R CABINET

Compatible with the following RF31/RF32/RF33/RF34/RF35/RF36 modular drawers: 30"W x 21"D, 36"W x 18"D, 30"W x 24"D, 36"W x 24"D, 30"W x 27"D with NC54 adapters

TEKZONE HUTCH

Attaches to TekZone Hutch rear utility panels at the desired height

MINI-RACKING

PVC decks for Mini-Racking for 48"W, 60"W and 72"W
Mini-Racking levels available: NC33 and NC34

Perforated model numbers must be completed with the tool code

MOBILE FREESTANDING STATIONS FOR CNC TOOLS

Rousseau mobile freestanding stations are designed to optimize your task changes. They make it easy for you to move to a different location while properly protecting your tools.

The mobile stations have ultra-quiet and smooth-rolling polyurethane casters that glide easily even on floors scattered with metal fragments or on greasy surfaces.

The rack's PVC surface protects tools against impacts, corrosion and spattering molten metal. The racks are also tilted 20° for easy handling and access to tools.

MOBILE FREESTANDING STATION FOR CNC TOOLS - 36" H

- Includes an aluminum handle for easier maneuverability and a document holder
- For transporting a large number of CNC tools from A to B

Maximum load capacity: 1,200lb. evenly distributed

STATIONARY STORAGE FOR CNC TOOLS

Whether you want to store specialized metalworking equipment (e.g., drill bits, collets, punches, tool holders) or standard tools (e.g., pliers, files, wrenches, sockets), Rousseau offers a wide range of solutions: freestanding stations, modular cabinets, shelving with drawers, Mini-Racking, and much more. All these options allow you to find the solution that best meets your specific requirements.

Our range of stationary storage provides effective protection against the kind of corrosion and premature wear that results from unsuitable storage. Your tools are precious; let Rousseau help you protect them!

SPIDER® SHELVING SYSTEM

Quick to assemble and built for heavy-duty industrial use, the Spider® Shelving System meets all of your storage needs. With multiple depth and height combinations to choose from, combined with a wide range of accessories, you can build a layout that will meet both your current and future needs. Assembly is easy: The shelves attach to the posts with four compression clips, so changing the layout is a quick and simple process.

Many configurations are possible, so contact Customer Service for a customized solution.

MINI-RACKING FOR CNC TOOLS

With a wide range of dimensions and options available, industrial-quality Rousseau Mini-Racking units offer an efficient way to store bulky items in a scalable system that easily adapts to specific needs. Easy to assemble and built to last, the Spider® Mini-Racking System is ideal for high-density storage of your CNC tools. For example, the option shown here provides quick access to your tools from both the front and rear.

STORAGE CABINETS, STATIONARY AND MOBILE

Rousseau's modular cabinets boast a heavy-duty and distinct design that is ideal for all environments. They are market-leading products thanks to the wide range of dimensions and accessories available, their modular design and, above all, their durability. The drawers have a load capacity of 400lb. each and can be opened to full extension. Each drawer comes subdivided.

LIFETIME WARRANTY
The Rousseau drawer rolling mechanism is covered by a lifetime warranty.

WORKSTATION SYSTEM

MULTI-PURPOSE WORKSTATION

Rousseau products are modular and versatile. For example, by combining shelving, a laminated wood top, utility panels, LED lighting and CNC tool racks, you have a complete workstation where everything is stored in the proper place. Each drawer comes subdivided.

WORKSTATION SYSTEM

We have the perfect customized solution whether you are looking for basic stationary or mobile workstations with or without storage space, or a more comprehensive workstation with multiple accessories.

You will love the versatility of our workstations and their ability to evolve along with your business needs by simply adding accessories, such as LED lights, riser shelves, power feed panels, 5S panels and

various holders. With multiple dimension combinations to choose from, you can create a completely customized space that meets the highest standards for ergonomics, safety and security.

And with CNC tool racks installed on WM uprights, you will always have your numerical control tools within easy reach.

5S STORAGE

Over the years, Rousseau has developed many different storage solutions to meet the standards of the 5S methodology. The aim of this Japanese technique is to continuously improve the work environment. It is designed to achieve better organization and an efficient work environment by ensuring each tool is in the right place, easy to find and well identified.

Furthermore, the storage solutions we offer help you to improve work conditions and morale for employees by reducing the time and energy they spend on unproductive tasks.

WALL-MOUNTED PANEL SYSTEM

Rousseau's 5S multi-purpose panel system can be used to store a broad range of items of different sizes, shapes and weights on a single surface.
